

Fall '86

ENVIRONMENTAL ENGINEERING SEMINAR

Fall Semester

1986

<u>Date</u>	<u>Speaker</u>	<u>Title</u>
Sept. 5	Introductory meeting of Program students and faculty	
Sept. 12	Stephen R. Kellogg President York Wastewater Consultants, Inc.	A Large-Scale Hazardous Waste Clean-up Case Study
Sept. 19	William R. Knoke Associate Professor Dept. of Civil Engineering Virginia Polytechnic and State University	Impact of Optimizing Organics Removal on Other Water Treatment Processes - Organics Removal: The Rest of the Story
Sept. 26	Bernard B. Berger Professor Emeritus Dept. of Civil Engineering Universtiy of Massachusetts	Infrastructures: A Broad View
Oct. 3	James W. Male Professor Dept. of Civil Engineering Universtiy of Massachusetts	The Corps, Decision-making, and Dredging of Contaminated Sediment
Oct. 10	NO SEMINAR	
Oct. 17	Linfield C. Brown Professor Dept. of Civil Engineering Tufts University	Uncertainty Analysis in Water Quality Modeling
Oct. 24	David Leland Arthur D. Little, Inc.	Environmental Impact Analysis of Oil Development in California
Oct. 31	Tom Potter	

Nov. 7	Purnachander Rao Graduate Research Assistant Dept. of Civil Engineering University of Massachusetts	Groundwater Contamination Cleanup Using Polymer Injection
Nov. 14	Robert J. Drake Graduate Research Assistant Dept. of Civil Engineering University of Massachusetts	The Degredation of Methylene Chloride in Unsaturated Soils
Nov. 21	Kirk Hatfield Graduate Research Asst. Dept. of Civil Engineering University of Massachusetts	Applications of Optimization in Groundwater Wasteload Allocation
Nov. 28	THANKSGIVING VACATION	
Dec. 5	Student seminars	
Dec. 12	Student Seminars	

All seminars will be held in Marston 211 at 3:00pm on Friday afternoons.
