

# CEE 692 ENVIRONMENTAL ENGINEERING SEMINAR SERIES

## SPRING 1995

- February 3            EVE Program Organizational Meeting and Social Hour
- February 10            Open
- February 17            Dr. Don J. DeGroot  
Geotechnical Engineering Program, UMass  
*"Sealing Geotechnical Exploratory Boreholes to Protect the Subsurface Environment"*
- February 24            Professor James M. Douglas  
Dept. of Chemical Engineering, UMass  
*"Process Alternatives for Pollution Prevention"*
- March 3                Hugo Soares  
Ph.D. Student, EVE, UMass  
*"Pathogen Indicator Regrowth Potential as a Method to Evaluate Compost Stability"*
- March 10                B.K. Bezbarua  
Ph.D. Student, EVE, UMass  
*"Modeling Ozone Consumption of Natural Organic Matter"*
- March 17                Open
- March 31                Parsons Engineering Science  
Speaker to be Announced
- April 7                 Thomas J. Martens and Rebecca L. McEnroe  
CH2M Hill  
*"Fall River Combined Sewer Overflow Program"*
- April 14                M.S. Graduate Student(s)
- April 21                Professor Raymond D. Letterman  
Dept. of Civil and Environmental Engineering, Syracuse University  
*"Electrokinetic Measurements in Coagulation Control"*
- April 28                Orren Schneider  
Ph.D. Student, EVE, UMass  
*"Dynamics of Oxidant Induced Particle Destabilization Phenomena"*
- May 5                  M.S. Graduate Student(s)
- May 12                 M.S. Graduate Student(s)
