

ENVIRONMENTAL ENGINEERING SEMINAR

<u>Date</u>	<u>Speaker</u>	<u>Title</u>
29 January	None	Orientation and Social Hour
5 February	Steve Rossello Parsons Engineering Science Liverpool, NY	Optimizing Groundwater Extraction
12 February	Ann Mulligan PhD Student UConn	Advective Control of Groundwater Contaminant Plumes Using Simulation and Optimization
19 February	Todd Anderson PhD Student EVE & Microbiology UMass	Anaerobic Benzene Degradation in Petroleum Contaminated Aquifers
26 February	Dr. William C. Becker O'Brien & Gere Landover, MD	The Importance of Oxidation and Filter Media Configuration in Maintaining the Passage of Particles During the Filter Ripening Period
5 March	EVE Faculty	Research Projects for Graduate School Opportunities for Environmental Engrg. at UMass
12 March	No Seminar	
19 March	Spring Break	
26 March	Dr. Sarina Ergas Asst. Professor UMass	Biological Air Pollution Control
2 April	No Seminar
