

**Spring 2010: CEE 691A ENVIRONMENTAL & WATER RESOURCES ENGINEERING SEMINAR**

Fridays 12:20 pm Location: 306 Elab Instructor: Casey Brown (Brown@ecs.umass.edu)

<b>Date</b>	<b>Speaker</b>		<b>Title</b>
Jan . 22	Paul Barten		
Jan. 29	Eve Vogel	Geosciences University of Massachusetts	Long-term Consequences of River Basin Institutions: the Columbia River (and Beyond)
Feb. 5	Peter Weiskel	MA-RI Water Science Center USGS	Rethinking the Terrestrial Water Balance: Steps Toward a Comprehensive Indicator Framework
Feb. 12	Ben Letcher	Silvio O. Conte Anadramous Fish Research Center USGS	Population Persistence in Brook Trout: Models and Projections
Feb. 19			
Feb. 26	Kirk Westphal	Camp Dresser & McKee	Designing Decision Support Systems in Practice
March 5	History and Heritage		
March 19	Spring Break		
March 26	Stephen Estes Smargiassi	Director of Planning MWRA	Planning for Climate Change at MWRA
April 2	Keith Nislow	USDA Forest Service	Environmental Effects on Community Dynamics in Atlantic Salmon
April 9	Mark Borsuk	Thayer School of Engineering Dartmouth College	Bayesian Statistical Methods in Environmental Modeling and Decision-Analysis
April 16	Chris Weaver	Global Change Research Division EPA	Reconciling Competing Visions of Climate Change Impacts, Vulnerability, and Adaptation Research
April 23	Students		
April 30	Students
