

GENERAL NOTES

- Topography was obtained from an aerial survey supplied by the Town of Amherst and supplemented by surveys made by Almer Huntley, Jr. & Associates, Inc., 125 Pleasant St., Northampton, Mass..
- All elevations refer to U.S.G.S. Mean Sea Level Datum.
- Borings were taken by the Chicopee Boring & Testing Laboratories, 644 Fuller Road, Chicopee, Mass. in Jan., 1974.
- Boring logs are appended to the specifications.
- Boring locations are shown on Sheet No. G-3.
- The location of existing buried pipes and underground structures, and of property lines shown are not warranted to be exact nor is it warranted that all are shown.
- All easements, right of ways, and property lines were obtained from a survey by Almer Huntley, Jr. & Associates, Inc., Northampton, Mass. in March, 1974.
- Notes pertaining to new work are shown thusly: [Symbol]
- Contractor to completely remove as specified existing structures indicated thusly: [Symbol]
- Contractor to partially remove as specified existing structures indicated thusly: [Symbol]
- Existing pipes designated to be abandoned shall be removed as required to complete new construction. All open ends of existing pipes left in place shall be plugged with concrete or as otherwise noted.
- Existing sewers, sludge lines, and drains shall be abandoned. See specifications.
- No pipe or structure located outside the limits of land owned by the Town of Amherst shall be removed, abandoned or otherwise disturbed unless so noted on this sheet.
- Existing buried electrical conduits not shown this sheet, see sheet No. E-1.
- Existing pavement shall be completely removed to the edge of pavement on Old North Hadley Road.
- The existing town water system shall be retained in its entirety.
- Elevation may be taken from TBM (RR spike in 36" maple) as shown on this sheet. Elevation must be verified by the Engineer prior to any new work.
- See sheet No. G-2 property lines and descriptions.
- Major flood elevation at plant site El. 144.88 obtained from drawing by Universal Engineering Corp. for the Commonwealth of Massachusetts entitled "Relocated Route 116 over Mill River at Sta. 323+00" dated 1955.
- T.S.M.E. indicates location as required "to suit Manufacturer's Equipment".
- See specifications for responsibility of installing all pipes indicated on sheets G-1 through G-9.
- Existing plant to be maintained during construction of work under this Contract. See specifications, Section 1F.
