## CONTENTS

<b>1.0 INTRODUCTION .....</b>	<b>1-1</b>
1.1 Eutrophication .....	1-1
1.2 The TMDL Development Process.....	1-2
1.3 Report Sections .....	1-4
<b>2.0 REVIEW OF PREVIOUS STUDIES ON THE ASSABET RIVER.....</b>	<b>2-1</b>
2.1 Sources of Existing Data .....	2-1
2.2 Physical Description of the Assabet River.....	2-2
2.3 Hydrology .....	2-3
2.3.1 Continuous Streamflow Measurement at the USGS Maynard Gauge.....	2-3
2.3.2 Streamflow measurements collected throughout the Assabet River.....	2-4
2.3.3 Time of travel measurements .....	2-5
2.4 Water Quality .....	2-6
2.4.1 Water Sampling for Chemical Constituent Concentrations.....	2-6
2.4.2 In-situ Dissolved Oxygen Concentration Measurements .....	2-10
2.5 Biology.....	2-10
2.5.1 Ecology of Duckweeds .....	2-12
2.6 Summary of the Review of Previous Studies .....	2-13
<b>3.0 ASSABET RIVER DATA COLLECTION PROGRAM DESCRIPTION .....</b>	<b>3-1</b>
3.1 Overview .....	3-1
3.2 Conceptual Approach to Data Collection.....	3-1
3.3 Description of Study Area and Data Collection Activities.....	3-3
3.4 Description of Field Surveys.....	3-3
3.4.1 Intensive Summer Surveys.....	3-4
3.4.2 Dry-weather Surveys .....	3-7
3.4.3 Wet-weather Surveys.....	3-8

## CONTENTS (Cont'd)

3.4.4	Sediment Nutrient Flux Surveys .....	3-10
3.4.5	Time of Travel Surveys .....	3-10
3.4.6	Impoundment Bathymetric and Sediment Thickness Survey .....	3-11
3.5	Data Collection Methods .....	3-11
3.5.1	Field Operations .....	3-11
3.5.2	Hydrologic Data Collection Methods .....	3-12
3.5.3	Water Quality Data Collection Methods .....	3-14
3.5.4	Sediment Quality Data Collection Methods .....	3-16
3.5.5	Biological Data Collection Methods .....	3-18
<b>4.0</b>	<b>HYDROLOGIC DATA COLLECTION SUMMARY .....</b>	<b>4-1</b>
4.1	Reference Hydrologic Data .....	4-1
4.2	Streamflow Measurements .....	4-1
4.2.1	Intensive Summer 1999 Survey .....	4-1
4.2.2	Intensive Summer 2000 Survey .....	4-2
4.2.3	Dry-weather surveys .....	4-3
4.2.4	Wet-weather Surveys .....	4-3
4.3	Time of Travel Measurements .....	4-4
4.3.1	May 2000 Time of Travel Survey .....	4-4
4.3.2	September/October 2000 Time of Travel Survey .....	4-5
4.4	Summary .....	4-6
<b>5.0</b>	<b>WATER QUALITY DATA COLLECTION SUMMARY .....</b>	<b>5-1</b>
5.1	Summer 1999 Survey .....	5-1
5.1.1	Reference Hydrologic and Point Source Discharge Data .....	5-1
5.1.2	In-situ Water Quality Measurements .....	5-2
5.1.3	Continuous In-situ Water Quality Measurements .....	5-3
5.1.4	Chemical Analysis of Water Samples .....	5-4
5.2	Summer 2000 Survey .....	5-6
5.2.1	Reference Hydrologic and Point Source Discharge Data .....	5-6
5.2.2	In-situ Water Quality Measurements .....	5-6

## CONTENTS (Cont'd)

5.2.3	Continuous In-situ Water Quality Measurements .....	5-7
5.2.4	Chemical Analysis of Water Samples .....	5-9
5.3	Dry-weather Surveys .....	5-10
5.3.1	Reference Hydrologic and Point Source Discharge Data .....	5-10
5.3.2	In-situ Water Quality Measurements .....	5-11
5.3.3	Chemical Analysis of Water Samples .....	5-11
5.4	Wet-weather Survey Summary .....	5-13
5.4.1	Reference Hydrologic and Point Source Discharge Data .....	5-13
5.4.2	In-situ Water Quality Measurements .....	5-13
5.4.3	Chemical Analysis of Water Samples .....	5-13
5.5	Water Quality Survey Summary .....	5-15
5.6	Nutrient Loadings Evaluation .....	5-17
5.6.1	Ortho-Phosphorus Loadings Estimates .....	5-17
5.6.2	Total Phosphorus Loadings Estimates .....	5-18
5.6.3	Nitrate and Total Nitrogen Loadings Estimates .....	5-18
5.6.4	Summary .....	5-19
<b>6.0</b>	<b>SEDIMENT DATA COLLECTION SUMMARY .....</b>	<b>6-1</b>
6.1	Impoundment Bathymetry and Sediment Thickness Survey .....	6-1
6.1.1	Impoundment Bathymetric Surveys .....	6-1
6.1.2	Impoundment Sediment Thickness Surveys .....	6-2
6.2	Sediment Nutrient Flux Surveys .....	6-2
6.2.1	March 2000 Sediment Nutrient Flux Survey .....	6-3
6.2.2	September 2000 Sediment Nutrient Flux Survey .....	6-4
6.3	September 2000 Sediment Quality Sampling Summary .....	6-7
6.4	Summary .....	6-8
<b>7.0</b>	<b>BIOLOGICAL DATA COLLECTION SUMMARY .....</b>	<b>7-1</b>
7.1	Summer 1999 Biological Data Collection .....	7-2
7.1.1	Summer 1999: Phytoplankton Assessment .....	7-2

## CONTENTS (Cont'd)

7.1.2 Summer 1999: Macrophyte Assessment.....	7-2
7.2 Summer 2000 Biological Data Collection .....	7-5
7.2.1 Summer 2000 Phytoplankton Assessment.....	7-5
7.2.2 Summer 2000: Zooplankton Assessment.....	7-6
7.2.3 Summer 2000: Macrophyte Assessment.....	7-6
7.2.4 Bioassay Assessment.....	7-8
7.3 Biological Assessment Summary.....	7-9
7.3.1 Phytoplankton.....	7-9
7.3.2 Zooplankton.....	7-10
7.3.3 Macrophytes .....	7-10
7.3.4 Summary .....	7-11
7.4 Glossary of Aquatic Biology Terms.....	7-13
<b>8.0 SUMMARY AND CONCLUSIONS.....</b>	<b>8-1</b>
8.1 Hydrologic Data Summary .....	8-1
8.1.1 Time of Travel Measurements.....	8-1
8.1.2 Hydrologic Conditions During Water Quality Surveys.....	8-2
8.2 Water Quality Data Summary.....	8-3
8.2.1 Historic Water Quality Data Summary: 1970s and 1980s.....	8-3
8.2.2 Historic Water Quality Data Summary: 1990s .....	8-3
8.2.3 Water Quality Data Summary: 1999-2000 .....	8-4
8.2.4 Summary of Nutrient Loadings to the Assabet River During Six Field Surveys.....	8-5
8.3 Sediment Data Summary .....	8-7
8.4 Biological Data Summary .....	8-8
8.4.1 Phytoplankton and Zooplankton.....	8-8
8.4.2 Macrophytes .....	8-9
8.4.3 Biological Assessment Summary .....	8-10
<b>9.0 REFERENCES .....</b>	<b>9-1</b>

## CONTENTS (Cont'd)

### APPENDICES

#### A SUPPLEMENTAL DATA

A-1 COMPILATION OF STREAMFLOW MEASUREMENTS COLLECTED  
DURING PREVIOUS STUDIES

A-2 COMPILATION OF TIME OF TRAVEL MEASUREMENTS COLLECTED  
DURING PREVIOUS STUDIES

B-1 SUMMER 1999: SUMMARY OF STREAMFLOW MEASUREMENTS

B-2 DRY WEATHER SURVEY – FEBRUARY 8-9, 2000: SUMMARY OF  
STREAMFLOW MEASUREMENTS

B-3 WET WEATER SURVEY – MARCH 16, 2000: SUMMARY OF  
STREAMFLOW MEASUREMENTS

B-4 DRY WEATHER SURVEY – MARCH 27, 2000: SUMMARY OF  
STREAMFLOW MEASUREMENTS

B-5 WET WEATHER SURVEY – MARCH 27, 2000: SUMMARY OF  
STREAMFLOW MEASUREMENTS

B-6 SUMMER 2000: SUMMARY OF STREAMFLOW MEASUREMENTS

B-7 WET WEATHER SURVEY – SEPTEMBER 12, 2000: SUMMARY OF  
STREAMFLOW MEASUREMENTS

C-1 SUMMARY OF ASSABET RIVER WATER QUALITY LABORATORY  
ANALYSIS MEASUREMENTS COLLECTED ON JULY 23, 1999

## LIST OF TABLES

Table 2-1	A Compilation of Previous Studies of the Assabet River .....	2-15
Table 2-2	Assabet River Tributaries with Approximate Drainage Areas and Rivermiles .....	2-18
Table 2-3	Summary of Streamflow Measurements Collected During Previous Studies .....	2-19
Table 2-4	Summary of Time of Travel Measurements Collected During Previous Studies .....	2-20
Table 2-5	Summary of Sampling Locations of Previous Studies (MADEQE, 1988) .....	2-21
Table 2-6	Upper Assabet River Water Quality Measurements Collected During Previous Studies .....	2-22
Table 2-7	Lower Assabet River Water Quality Measurements Collected During Previous Studies .....	2-23
Table 2-8	Summary of POTW Flows and Nutrient Loadings Measured During Previous Studies .....	2-24
Table 2-9	Dissolved Oxygen Concentration Measurements Collected by US EPA in August 1996 .....	2-25
Table 3-1	Data Collection Matrix: Survey and Data Collection Activities .....	3-22
Table 3-2	Data Collection Matrix: Survey Type and Sampling Locations .....	3-23
Table 3-3	Analyses Performed in Support of the Assabet River Water Quality Surveys .....	3-24
Table 4-1	Summary of Streamflow Data Collection Results for All Surveys (in cfs).....	4-8
Table 5-1	Summer 1999: Summary of POTW Flows, Nutrient Concentrations, and Nutrient Loadings .....	5-20
Table 5-2	Summer 1999: Summary of Synoptic In-Situ DO Concentration, Temperature and pH Measurements.....	5-21
Table 5-3	Summer 1999: Summary of River Impoundment Synoptic In-Situ Water Quality Measurements.....	5-22
Table 5-4	Summer 1999: Summary of Assabet River Water Quality Laboratory Analysis Measurements.....	5-23
Table 5-5	Summer 1999: Summary of Tributary Water Quality Laboratory Analysis .....	5-24
Table 5-6	Summer 2000: Summary of POTW Flows, Nutrient Concentrations, and Nutrient Loadings .....	5-25
Table 5-7	Summer 2000: Summary of River Synoptic In-Situ DO concentration, Temperature and pH Measurements .....	5-26

---

## LIST OF TABLES (Cont'd)

Table 5-8	Summer 2000: Summary of Tributary Synoptic In-Situ DO concentration, Temperature and pH Measurements .....	5-27
Table 6-1	March 2000 and September 2000: Sediment Nutrient Flux Data Summary.....	6-10
Table 6-2	Summary of Assabet River Sediment Nutrient Flux of Ortho-Phosphorus Expressed Relative to Water Column Concentrations.....	6-11
Table 6-3	September 2000: Sediment Quality Sampling Analyses .....	6-12
Table 7-1	Summer 1999: Summary of Assabet River Chlorophyll-a Measurements.....	7-16
Table 7-2	Summer 1999: Phytoplantion Density in the Assabet River Impoundments.....	7-17
Table 7-3	Summer 1999: Phytoplankton Biomass in the Assabet River Impoundments.....	7-18
Table 7-4	Summer 1999: Plant Community Assessment for the Assabet River Impoundments.....	7-19
Table 7-5	Summer 1999: Summary of Assabet River Impoundment Algal Surface Mat Composition .....	7-20
Table 7-6	Summer 2000: Summary of Assabet River Chlorophyll-a Measurements.....	7-21
Table 7-7	Summer 2000: Phytoplankton Density in the Assabet River Impoundments .....	7-22
Table 7-8	Summer 2000: Phytoplankton Biomass in the Assabet River Impoundments.....	7-23
Table 7-9	Summer 2000: Zooplankton Density in the Assabet River Impoundments.....	7-24
Table 7-10	Summer 2000: Zooplankton Biomass in the Assabet River Impoundments.....	7-25
Table 7-11	Summer 2000: Biomass Measurements Associated with each Biomass Rating in the Assabet River Impoundments .....	7-26
Table 7-12	Summer 2000: Plant Community Assessment for the Assabet River Impoundments.....	7-27

## LIST OF FIGURES

Figure 2-1	Map of the Assabet River (MADEQE, 1988) .....	2-26
Figure 2-2	Schematic Physical Representation of the Assabet River, Rivermile vs. Elevation with Impoundments and Major Point Source Discharges Identified .....	2-27
Figure 2-3	Average Monthly Streamflow in the Assabet River as Measured at the USGS Maynard Gauge (RM 7.7). Period of Record 1941-1997. ....	2-28
Figure 2-4	Rough Estimate of Streamflow vs. Rivermile Relationships for the Assabet River .....	2-29
Figure 2-5	Map of the Assabet River with Locations of Sampling Locations of Previous Surveys (MADEQE, 1988).....	2-30
Figure 2-6	Total Phosphorus Concentration Measurements Collected During Three Previous Surveys vs. River Mile (MADEQE, 1988) .....	2-31
Figure 3-1	Map of the Assabet River Watershed with Sampling Locations Indicated .....	3-25
Figure 3-2	Schematic Representation of the Assabet River Rivermile vs. Elevation with Sampling Locations Identified.....	3-26
Figure 3-3	Illustration of Channel Cross-Section Showing the Distances of the Measured Velocities from the Shore and the Depths of the Partial Area Cross-Sections (USGS, 1969).....	3-27
Figure 3-4	Illustration of Automated Wet-Weather Grab Sampler .....	3-28
Figure 4-1	Summer Survey 1999: Assabet River Streamflow and Precipitation Data for Intensive .....	4-9
Figure 4-2	Surveys #2-#8: Assabet River Streamflow and Precipitation Data at USGS Maynard (RM 7.4) .....	4-10
Figure 4-3	Surveys #10-#13: Assabet River Streamflow and Precipitation Data at USGS Maynard (RM 7.4) .....	4-11
Figure 4-4	May 2000 Time of Travel Survey: Dye Concentration vs. Time at Rt. 117/62 (RM 8.6).....	4-12
Figure 4-5	September/October 2000 Time of Travel Survey: Dye Concentration vs. Time at Two Locations (RM 8.6 and RM4.4) .....	4-13
Figure 5-1(a)	Summer 1999: Minimum Dissolved Oxygen Concentrations Measurements with Schematic Physical Representation of the Assabet River (RM 18-31) .....	5-47
Figure 5-2	Summer 1999: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 28, School St., Northborough .....	5-49
Figure 5-3	Summer 1999: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 21.5, Bigelow Road, Berlin .....	5-50

## LIST OF FIGURES (Cont'd)

Figure 5-4	Summer 1999: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 15.9, Cox St., Hudson.....	5-51
Figure 5-5	Summer 1999: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 7.4, USGS Gauge, Maynard .....	5-52
Figure 5-6	Summer 1999: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 2.4, Rt. 2 Bridge, Concord .....	5-53
Figure 5-7	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 28.0, School Street, Northborough .....	5-54
Figure 5-8	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 23.9, Boundary Street, Marlborough.....	5-55
Figure 5-9	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 15.9, Cox Street, Hudson .....	5-56
Figure 5-10	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 7.4, USGS Gauge, Maynard .....	5-57
Figure 5-11	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 4.4, Damonmill, Concord .....	5-58
Figure 5-12	Summer 2000: Continuous Dissolved Oxygen Concentration Measurements Collected at Rivermile 2.4, Rt. 2 Bridge, Concord .....	5-59
Figure 5-13	Ortho-Phosphorous Loadings to the Assabet River - Distributions of Point Source vs. Non-Point Source Loadings During Six (6) Field Surveys.....	5-60
Figure 5-14	Total Phosphorous Loadings to the Assabet River - Distributions of Point Source vs. Non-Point Source Loadings During Six (6) Field Surveys.....	5-61
Figure 5-15	Nitrate Loadings to the Assabet River – Distribution of Point Source vs. Non-Point Source Loadings During Six (6) Field Surveys.....	5-62
Figure 5-16	Total Nitrogen Loadings to the Assabet River – Distribution of Point Source vs. Non-Point Source Loadings During Six (6) Field Surveys .....	5-63
Figure 6-1	Assabet River: Bathymetry of Allen Street Impoundment, Northboro .....	6-13
Figure 6-2	Assabet River: Bathymetry of Rt 85/Hudson Impoundment, Hudson .....	6-14
